SAI GRAFIO

A Sterling Paperback

"Mysteries—Past, present and future—can be known by knowledge of one's self or Atma. Atma Vidya or knowledge of one's self is Brahma Vidya or knowledge of God."

"The beginning never was and the end will never be. Where does that put us? The answer is Now. We always remain in the Now—the Eternal Now. Every moment is now, every day is now, every year is now and every aeon is now."

"One can transcend the relative world of cause and effect by practising karma yoga; that is, doing one's duty in the world and surrendering the fruits thereof. It is important to remember that we are not the doer. God is the indweller who performs all actions through us."

...Excerpts

This book demonstrates remarkable parallels between Eastern and Western traditions of philosophy and religion. The journey of life commences from the not-self to the Self, from darkness to light. Truth has always been the same; God is man and man is God. We are moving into a Dispensation of Revelation when these mysteries are being revealed. The author has culled these sacred truths from some of the world's scriptures.
