### New and Revised Text

To assist the reader in recognizing new and revised information included since the previous (August, 1975) edition of this manual, lines which include any new and/or revised text in this edition, not including the constitutional documents, are annotated by a line in the

left-hand margin for easy identification. Provisions of the constitutional documents which were amended by the council on legislation at the 1977 (San Francisco) convention are indicated by footnote references.
