Types or conjugations . . . . .	65
Forms or aspects . . . . .	65
Tenses . . . . .	70
The imperative . . . . .	81

TEACH YOURSELF BOOKS

## COLLOQUIAL ARABIC

It is commonly supposed that throughout the Arab World the same language is spoken. In practice, the Arabic in use in the individual countries can differ as widely as Spanish and Italian. This book has been prepared for those readers who wish to make use of the living language of Modern Egypt and also for those who would like to add a colloquial Arabic to their knowledge of languages.
