*Exploring The Road Less Travelled* is designed as a practical companion guide and teachers' manual for those who wish to study further, in groups or as individuals, the challenging ideas outlined by psychiatrist Dr M. Scott Peck in his world-wide bestseller *The Road Less Travelled*.

Dr Peck's argument that we need a 'new psychology of love, traditional values and spiritual growth' has found a wide and receptive audience and thousands of study groups have been formed to explore his ideas in greater depth. To aid them, Alice and Walden Howard have prepared this manual. It is a book for teachers, educationalists, psychiatrists, social and community workers, ministers of religion, spiritual counsellors and, indeed, everyone seeking a way out of the stresses and tensions of today's violent and fragmented world.
