<b>Workshop Terms and What They Mean</b>	<b>64</b>

**Have FUN WITH YOUR HOBBIES**  
**as shown in these popular books for hobby fans**

**FUN WITH YOUR CAMERA** by Mae and Ira Freeman

"Clear, easy-to-follow instructions for taking pictures with a box camera. The basic principles of photography are explained, followed by directions for loading a camera, choosing a subject, focusing, phoning the picture, making test pictures and mounting and filing pictures. Recommended."—Children's Book Center, University of Chicago

**FUN WITH ASTRONOMY** by Mae and Ira Freeman

"The text is perfectly clear and direct, and the suggested experiments, illustrated by photographs, are the simplest and most compelling I have ever seen for illuminating ideas which even adults often find difficult to grasp. Recommended."—Scientific American

**FUN WITH SCIENCE** by Mae and Ira Freeman

"Juvenile scientists will find a wealth of material in Fun with Science. Fundamental principles of science are set forth by means of simple and entertaining experiments which can be done at home without complicated equipment. Excellent photographs illustrate the experiments."—Science News Letter

**FUN WITH CHEMISTRY** by Mae and Ira Freeman

"As in their Fun with Science, the authors have illustrated certain basic principles of chemistry through experiments which are safe and simple. Highly recommended."—Library Journal

**FUN WITH FIGURES** by Mae and Ira Freeman

"A fascinating and instructive book for a 10-to-14-year-old who likes experiments, or for anyone who is having difficulty with geometry in school."—San Francisco Chronicle

64 pages—Size 8 x 10—Profusely illustrated with photographs. Each \$1.50
