Read what People Think of Rennie Macandrew's Books

Dear Sirs,

Some time ago you were good enough to fulfil my order for 'The Art of Courtship and Marriage,' by W. M. Gallichan, and 'Friendship, Love Affairs and Marriage,' by Rennie Macandrew. The latter has greatly impressed me by its frankness, breadth of vision and sanity. Its balanced presentation, the respect shown in it for the restraints of a true morality, and for the wisdom of a precient and happily normal religion, are admirable most especially in a book imparting this vital knowledge.

So grateful am I to the author for this healthy outlook, which is so hard to find in the life and growth of the ordinary man, that I feel I must also buy his two books, 'Life Long Love' and 'The Red Light.' I enclose for this purpose postal order value 6/6 (I imagine 6d. will cover the joint postage, but if not I will remit the balance on hearing from you).

The wide dissemination of such knowledge and advice as is given by Rennie Macandrew is, I am sure, a great service to humanity, with all its fears, and it may well be largely helpful in preventing that unbalance of extremism which has seemed likely in recent years to enmesh the lives of the newer generations. I should be grateful if you would pass on my thanks and good wishes to him, and my hope that as he has helped me, so he may long continue to open the eyes of many to sanity and wisdom.

Yours faithfully

"Numerous readers have been grateful for the advice they have gained from his other works, and undoubtedly this small book will be useful to many adolescents in need of enlightenment on this important subject." (From the introduction to *Approaching Manhood*.)—*Kenneth M. Walker, O.B.E., M.B., F.R.C.S., D.Ch., etc.*

"*Approaching Manhood* and *Approaching Womanhood*. . . The accurate teaching of sex to children is as important for the happiness of the world as teaching them that 1 plus 1 equals 2. . . If you have a boy or girl who is growing up and becoming rightly curious as to the mechanics of his or her coming hither, just leave Kenzie Macandrew to teach them simply, lucidly, and understandingly, all they want to know."—*North East Review*.

"In *Friendship, Love Affairs and Marriage* the author deals with a much wider field. . . He produces a work which is interesting, confident without a tendency to 'talk down,' and which many people will find very helpful. . . A wealth of practical hints and examples is provided."—*Cambridge University Medical Magazine*.

"Your book, *Friendship, Love Affairs and Marriage* has ended my stultifying experiences with the opposite sex and changed my whole outlook on life. A million thanks to you for having written it."—*From a Reader*.

"A Godsend to the lonely or the shy. . . No man need wonder what he should or should not do. . . No girl need hesitate or fear embarrassment. The author obviously understands the obstacles that confront those who fall in love and offers a solution with clarifying simplicity. . . The inexperienced will bless the day they read this book; the experienced will wish they had read it in their youth."—*The Superman* (Referring to *Friendship, Love Affairs and Marriage*).

"I like the downright commonsense of *Life Long Love*, and the homely practical way in which you answer people's real problems. You have what Kipling calls the 'common touch.' . . . You are doing a great work."—*A leading Clergyman*.

"I have just finished reading *The Red Light*. There are twenty-five men billeted here and everyone of them has read your book with absorbing interest from cover to cover. In all my experience in the army this has never before happened to any single book."—*A Sergeant in H.M. Forces*.
