A Laurel Edition

A clear and comprehensive introduction
to chemistry

Chemistry Made Easy

by Louis T. Masson

Newly revised by the author □ with over 100 illustrations

Atoms / Electrons / Molecules / Compounds
Ions / Acids / Bases / Salts / Equations

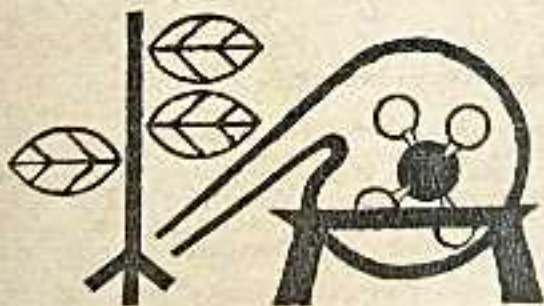

A Laurel Edition

Chemistry

Made Easy

by Louis T. Masson

Newly revised by the author

Contents

chapter	page
1. OUR CHEMICAL WORLD	7
2. MATTER AND ENERGY	15
3. MEASUREMENT—THE BASIS OF CHEMISTRY	24
4. ELEMENTS—THE A B C OF MATTER	32
5. COMPOUNDS AND MIXTURES	41
6. OXYGEN—THE INDISPENSABLE	50
7. HYDROGEN—NATURE'S LIGHTWEIGHT	63
8. WATER—THE ESSENTIAL LIQUID	73
9. WATER—SOLUTION AND PURIFICATION	84
10. THE INVISIBLE WORLD	96
11. MEASURING THE INVISIBLE	105
12. THE ELECTRON THEORY	118
13. VALENCE AND FORMULA WRITING	136
14. THE BALANCED EQUATION	151
15. THE MATHEMATICS OF CHEMISTRY	163
16. THE HALOGENS—A TYPICAL FAMILY	176
17. ACIDS AND BASES—THE CHEMICAL ENEMIES	189
18. NEUTRALIZATION AND SALTS	198
19. IONIZATION—THE CHARGE OF THE ATOMS	207
20. SULFUR—THE GOLDEN NONMETAL	224
21. COMPOUNDS OF SULFUR	235

CHEMISTRY MADE EASY presents the concepts of everyday chemistry in an easily understood and clearly illustrated manner. It will enable you to understand the many ways in which chemistry affects your daily life and answer questions such as the following:

- What is the indispensable element?
- How can hard water be softened?
- What are isotopes?
- What makes silver tarnish?

The answers to hundreds of basic and practical questions like these can be found in **CHEMISTRY MADE EASY**, a study designed to introduce the student to chemistry and to make the general reader more aware of the role of chemistry in his daily life.

CHEMISTRY MADE EASY provides a proven introduction to the whole broad field of chemistry. It has been revised by the author to include recent developments and contains abundant illustrations, exercises, tables, a glossary and an index.
