India never invaded any country in her last 10,000 years of history.

As The World Sees India.....

"We owe a lot to the Indians, who taught us how to count, without which no worthwhile scientific discovery could have been made."

- Albert Einstein, Scientist

"Whenever I have read any part of the Vedas, I have felt that some unearthly and unknown light illuminated me. In the great teaching of the Vedas, there is no touch of sectarianism. It is of all ages, climes and nationalities and is the royal road for the attainment of the Great Knowledge. When I read it, I feel that I am under the spangled heavens of a summer night."

- Thoreau (American Thinker)
