LOW-PRICED TEXTBOOK

WORKSHOP TECHNOLOGY

PART I

AN INTRODUCTORY COURSE

BY

W. A. J. CHAPMAN

PH.D., M.Sc. (ENGL.), M.Ed., M.C.E., M.T.P.E.

PRINCIPAL, NAYFIELD COLLEGE OF TECHNOLOGY, HERTFORDSHIRE

THE ENGLISH LANGUAGE BOOK SOCIETY
and
EDWARD ARNOLD (PUBLISHERS) LTD

CONTENTS

| | |
|--|-----|
| CHAPTER 1. INTRODUCTION—MATERIALS—IRON AND STEEL. Introduction—Materials—Pure Iron—Blast Furnace—Pig Iron— Cast Iron—Alloy Cast Irons—Cupola—Wrought Iron—Puddling Process—Malleable Cast Iron—Steel—Open Hearth—Bessemer —Carbon Steel—Crucible and Electric Processes | 1 |
| CHAPTER 2. THE PROPERTIES AND TREATMENT OF IRON AND STEEL. Brittleness—Ductility—Elasticity—Hardness—Malleability—Plasticity —Toughness—Microstructure of Steel—Effect of Heating Steel— Critical Range—Heat Treatment of Steel—Furnaces and Furnace Temperatures—Pyrometers—Reasons for Heat Treatment— Annealing—Normalising—Hardening and Tempering—Hot and Cold Working—Case-Hardening—Workshop Tests for Iron and Steel | 23 |
| CHAPTER 3. NON FERROUS METALS AND ALLOYS—ALLOY STEELS —PREPARATION OF METALS—“ RARE ” METALS—CERAMIC TOOLS. Aluminium and its Alloys—Copper and its Alloys—Lead—Tin and Alloys—Bearing Metals—Bronze—Zinc—Brass—Alloy Steels— High Speed Steel—Alloy Tool Steels—Cutting Carbides—“ Rare ” Metals—Ceramic Tools—Hot Rolling—Cold Rolling—Cold Drawing—Moulding and Casting | 48 |
| CHAPTER 4. HEAT PROCESSES—FORGING, RIVETING, SOLDERING AND BRAZING. Hand Forging—The Forge and Tools—Upsetting—Drawing Down— Bending—Punching—Drifting—Welding—Forging Examples— Power Hammers and their Tools—Drop Forging—Drop Stamps and Dies—Riveting—Soldering—Brazing—Silver Soldering | 74 |
| CHAPTER 5. POWER, SAFETY AND CARE. Safety in the Shop—Mechanical and other Accidents—Safety Devices —Electrical Accidents—Power—Driving of Machines—Belt Driving—Belts and Joints—Gear Driving—Chain Driving— Power of Belt—Pulleys—Shafting—Bearings—Wear—Lubrica- tion—Gravity—Force—Splash—Care and Order in the Workshop | 106 |
| CHAPTER 6. METAL CUTTING. Metal Cutting—Hole and Clearance—Flat Chisel—Saw—File— Drill—Grinding Drills—Drilling Hints—Turning, Boring, Shaping and Planing Tools—Effect of Tool off Centre—Cutting Holes and Chamfers for Various Metals—Cutting Speed—Feeds— Lubrication of Cutting Tools—Surface Finish | 136 |
| CHAPTER 7. CHECKING AND MEASUREMENT OF SURFACES. Surface Relationships and Accuracy—Tests for Accuracy—Flatness —Squareness—Parallelism—Roundness—Concentricity— Angle Measurement—Vernier Protractor—Length Measurement —The Rule—Calipers—Micrometer—Vernier Caliper—Use of Gauges—Metric System—Metric Micrometer and Vernier | 157 |

The **ENGLISH LANGUAGE BOOK SOCIETY**, in co-operation with leading publishers, brings you essential textbooks at greatly reduced prices. Most of the titles at present are in the scientific and technical range, and a list of them will be found inside this book. In every case the original text has been used.

This book (blue, soft) is for sale at a U.K. price of:

9s.

Each title in the **LOW-PRICED TEXTBOOK** series carries its distinctive coloured label (blue, orange, green, or dark red) according to the approved U.K. price, which is also marked on the back of the book.

Ask your bookseller to show you his stock of the E.L.B.S. series, and always remember to look for this label on the cover.
