

A fund of clarity in an increasingly obfuscated world – *The Times Educational Supplement*

Now fully revised and updated, Dr Paxton's dictionary contains almost 40,000 entries, including all the most recent contractions, shortened forms of words, acronyms, initials, signs and symbols drawn from many fields. The result is a modern and comprehensive work of reference for everyone.

The student or scholar, the administrator, the business person and exporter, as well as the general reader at home or at work, will find this dictionary invaluable, as will anyone who is irritated by the current tendency to use abbreviations without first explaining them.

To guide the bewildered outsider through the jargon jungle Dr Paxton has edited the first comprehensive dictionary of abbreviations. – *The Times*

International in its scope, a valuable book to have, clearly comprehensive. – *Daily Telegraph*
