Though most of them are set in Albania, the novel does not resemble it. Its style, rapid dialogue, action and its unerring sense of rhythm is characteristic of the author's previous work. The novel is a study in the life of a man who is a man and a woman who is a woman. It is a study in the human condition in life.

Author of five books of verse, he published his first novel in 1938 when he was 17. This is the first collection of his stories to appear in English.
