

CRYSTAL & GEM

Discover the fascinating world of crystals and
gems – their beauty, uses, structure
and amazing variety

In association with
THE NATURAL HISTORY MUSEUM

CRYSTAL & GEM

Here is a spectacular and informative guide to the amazing world of crystals and gems.

Superb colour photographs of crystals, jewels, and gemstones of every colour, size, and shape offer a unique "eyewitness" insight into their extraordinary beauty and variety.

See

a crystal growing • diamonds used to cut through a brick wall • a pharos crystal • gemstones formed in a volcano • crystals of gold and silver

Learn

how a quartz watch works • how to identify crystals • why crystals have been given "H. quartz" • how crystals are used in healing • why Napoleon had a diamond in his sword

Discover

what gemstones are used in jewellery • why gemstones are toxic • which gemstones attract good spirits • which is your lucky stone

and much, much more
