It is the dawn of the Sathya Yuga, the Golden Age. Feelings alone are bringing a New Creation, a pristine creation born directly from God without dissolution. We are witnesses to this phenomenal event. This book tells the story of the Sathya Yuga and how the four ages of man are born. Why is this New Age coming? How is it able to come at this time? Sri Vasantha Sai's unfolding of the cosmic drama is an unparalleled vision of Avataric descent and the expansion of Consciousness, Premia and Truth. Sri Sathya Sai Baba's handwritten notes guided Amma in preparing the text. He marked the material to be included, set the order of the chapters and selected the core of this book from Amma's diaries. Without Him there would be no expansion of Truth.

"We are Purusha and Prakrithi come in the Virat Purusha form. We have come to usher in the Sathya Yuga."
