Note: Whenever there is a reference to Swami in this book, it refers to the author's experience in her meditative state with Sri Sathya Sai Baba.

Throughout the world many miracles are taking place in the houses of devotees. Some miracles increase our faith in God, while some cause confusion. How are we to know which are true and which are false? How to find which will take us higher on the path of sadhana and which will cause stagnation sending us deeper into maya?

It is Swami Himself who has asked me to write this book for the awareness and discernment of spiritual seekers; but it is only the first step. We need to sharpen our discrimination to know the truth. My humble prayer to all of you is that you read this book with an open heart and open mind. Gain benefit and attain the One who is behind all miracles, beyond all maya, Bhagavan Sri Sathya Sai Baba. It is for this reason alone that this book has been written.

May God bless you.
