

The cover features a dark, textured background. A bright yellow crescent moon is positioned in the upper right quadrant. Below it, a cluster of various gemstones, including red, green, blue, and white stones, is set against a yellow, starburst-like pattern. The title is printed in white, serif font.

Handbook of
**PLANETARY
GEMOLOGY**

Translations of ancient Sanskrit texts on gemology,
the astrological characteristics of gems,
their talismanic powers, gemological properties,
present-day mining sources, and more.

Richard S. Brown, Jr.
