HOUSTON

Houston. The engine of Texas. Blue-collar, white-collar, no-collar. Here's a photo portfolio of a city whose "can-do" attitude has propelled it into the global arena, and beyond into outer space. A splendid collection of images that reflect Houston's unique blend of big city bustle and small town values.

Tracy Vessels' work often appears in local and national publications, such as *Texas Monthly*, *USA Today*, and the *Houston Chronicle*. Mr. Vessels produced all the color photos for *Ray Miller's Houston*.

Enjoy more of **Texas Sights and Scenes!** If a picture is worth a thousand words, these dandy little photo collections speak volumes. Perfect as gifts, souvenirs, or mementos of "I was there," each guide portrays in color and composition the essence of a unique area of Texas.
